Advantages with Bulk Voice SMS – Vibrant Multimedia

Voice SMS Services

Voice SMS brings business and hence are being used as an effective marketing tool these days. If the message is conveyed in local language, it attracts more visitors. Outbound Dialers are therefore the right choice for your all business needs. Our voice SMS solutions are designed to make communication personalized and effective.

Outbound Dialer Solutions

Bulk SMS provides you the numbers to which you can call and get your messages recorded in your own voice. You can also upload a clip or text which will be automatically converted to speech. These messages can be immediately transferred to the groups or individuals in the form of automated phone calls.

With the IVR functionality, two-way communication can be deployed for asking feedback or opinion from the users while using our web interface.

Record and Send from Anywhere

Urgent broadcasts or multicasts can be sent from anywhere as the office, internet or computers are not needed for sending such Voice SMSs with our solutions. You can call our specific numbers to record your message and schedule it for the group members.

Provision of transparent pricing, API integration solutions, boundary-free functionality, hassle-free operations, smooth communication, voice translation facilities, clarity and numerous Voice SMS solutions make Bulk SMS the best service provider for your organization.

Getting started

Registering for your BulkSMS account is simple and easy and will only take a few moments. To start sending bulk SMS messages, Its Free Registration No Hidden charges, You can use bulk sms with free credits.
